

# FEDERATED CHARITIES 2017

## EVERY ACTION LEAVES ITS MARK

**For 106 years, the actions of a group of committed citizens  
has extended the reach of a single organization to benefit  
thousands of Frederick County residents**

# FEDERATED CHARITIES

## 2017 IMPACT

Since 1911, Federated Charities has helped nonprofit organizations in Frederick build sustainable projects and infrastructure. In addition to our backbone services to organizations, we are committed to delivering quality direct service programming that makes a difference for all the citizens in our community

**914** pieces of medical equipment loaned out in 2017, representing **healthcare cost savings of \$49,214** to Frederick residents. We also **distributed 243 pounds of fresh produce** and **shared 319 hats, gloves and scarves** with people who needed them this winter

**9** TRADITIONAL TENANT-PARTNERS

**4** INCUBATOR TENANTS

As a member of the Nonprofit Centers Network, Federated Charities provides reduced cost or free office space and shared services to nonprofits. As a result, **more than \$205K in rental fees** goes back into the community every year as mission-based program dollars

Value of volunteer time donated to Federated Charities in 2017, which included Board and committee member hours, In-kind services and event volunteers

**\$17,333**

**247,823**

times people petted the dog statue in front of the building in 2017 (we made this one up but it's probably pretty close).

# A year in the life of a Federated Charities wheelchair

On average a wheelchair from the Beverly A. Sharrer Medical Equipment loan closet is borrowed 3-5 times per year. At an approximate cost of \$119 to purchase a used wheelchair, access to our equipment ensures that individuals and families save on medical costs. This is what our wheelchair (inventory item #1193) experienced in 2017.

## January 2017

Heather C. was referred to Federated Charities by a local rehab group. She was scheduling surgery and needed equipment for her recovery. She also borrowed a portable commode (return date: 3/2017)

## July 2017

JoAnn L. has borrowed from Federated Charities before. When her husband was coming home from the hospital, she called for a loan of a wheelchair and a rollator so she could care for him at home. It took him a little longer to bounce back than she expected so we extended her loan by a couple of months. Our constantly rotating inventory of donated equipment lets us be flexible that way (return date: 7/2017)

## August 2017

Charlotte M. planned to have her father visit for a short period of time and wanted to be able to take him to medical appointments and family events. The transport wheelchair she borrowed is lightweight and folds easily into the trunk of an average car (return date: 9/2017)

## November 2017

David M. borrowed #1193 for a short period after he recovered from surgery during the holidays. Over the years, we have seen surgeries become much less invasive and debilitating, which leads to shorter recovery periods and increases our ability to revolve equipment in and out (return date: 12/2017)
